

Shaik Tanzil

Frontend Developer | Khammam, Telangana

+91 9573149185 | shaiktanzil707@gmail.com | linkedin.com/in/shaiktanzil | github.com/tanzil112

Summary:

Dedicated Frontend Developer with hands-on experience in developing responsive and user-friendly web applications. Proficient in JavaScript, ReactJS, and other web technologies. Successfully contributed to dynamic projects such as a Travel Planner Application and E-Commerce Website Clone. Adept at performance optimization, API integration, and agile development workflows, bringing innovative solutions to the table.

Skills:

- Languages:** JavaScript, Basic Java
- Web Technologies:** HTML, CSS
- Frameworks/Libraries:** ReactJS, Bootstrap
- Tools:** MS Excel, Git, GitHub, VS Code

Certifications:

- | | |
|--|---------------------|
| Java Course, Hitbullseye | November 2022 |
| Front-end Full Course, Coursera | December 2023 |
| Java Full-stack Course, ExceLR Solutions | July 2024- Dec 2024 |

Internship:

Oct 2024 – Jan 2025

Acquired hands-on experience in developing and deploying web applications at AiVariant, contributing to a dynamic Travel Planner Application. Specialized in creating responsive, user-friendly interfaces and ensuring seamless front-end and back-end integration. Gained expertise in debugging, version control, and agile workflows. Focused on performance optimization to deliver scalable and efficient solutions.

Projects:

Travel Planner Application: Aug 2024 – Oct 2024

- Developed a Travel Planner App using ReactJS for the front end and Spring Tool Suite for back-end API management, featuring itinerary planning, hotel/flight bookings, and personalized recommendations.
- Integrated third-party APIs for real-time flight and weather information and added offline access to itineraries, while implementing budget tracking for users.

E-Commerce Website Clone: May 2024 – July 2024

- Built a responsive clone of the Vaaradi Farms website with HTML, CSS, and JavaScript, including a product gallery with image zoom, interactive filters, and search functionality.
- Developed shopping cart, checkout features, and ensured fast loading and cross-device compatibility, while focusing on intuitive UI/UX design.

Dynamic Web Portfolio: March 2024 – April 2024

- Developed a responsive and interactive portfolio website using HTML, CSS, and JavaScript, featuring dynamic typed text effects, interactive hover animations, and a contact form for collaboration.
- Showcased projects with detailed descriptions, images, and GitHub links, attracting 200+ views, while ensuring seamless mobile and desktop navigation.
