

Education:

Degree	Institution	CGPA/Percentage	Year
B. Tech in Computer Science	Lovely Professional University, Punjab	7.0	2020 - 2024
Higher Secondary	Krishnaveni Junior College, Telangana	8.7	2018 - 2020
Secondary Education	New Era high school, Khammam	9.0	2018

Projects:

Travel Planner Application

- Developed a comprehensive Travel Planner app using **ReactJS** for front-end and **Spring Tool Suite (STS)** for the backend API management.
- Key features include **itinerary planning**, **hotel and flight bookings**, and personalized **travel recommendations**.
- Integrated **third-party APIs** for flight and weather information.
- Offline Mode:** Users can access their travel itineraries without internet connectivity.
- Budget Tracking:** Enables users to set budgets for trips and track their expenses in real-time.

E-Commerce Website Clone

- Built a responsive clone of the Vaaradi Farms website using **HTML**, **CSS**, and **JavaScript**.
- Designed a **product gallery** with **image zoom** and **interactive filters**.
- Implemented **search functionality**, a **shopping cart**, and **checkout features**.
- Optimized for **fast loading** and ensured **cross-device compatibility** across desktop and mobile devices.
- Focused on **UI/UX design** to enhance the user experience with an intuitive, visually appealing interface.

Dynamic Web Portfolio

- Developed a personal **static portfolio** website using **HTML**, **CSS**, and **JavaScript**.
- Added dynamic **typed text effects** to display project names and technologies used.
- Integrated **hover animations** for interactive navigation and content presentation.
- Designed and implemented a **contact form** for potential employers or collaborators to get in touch.
- Curated an engaging portfolio section highlighting projects, integrating images and detailed descriptions, while linking to GitHub repositories; enhanced visibility for work by **attracting 200+ views** from potential employers.
- Focused on **responsive design** to ensure seamless navigation across different screen sizes.

Skills:

- Languages:** JavaScript, HTML, CSS, Basic Java, OOPS
- Frameworks/Libraries:** ReactJS, Bootstrap
- Tools:** Git, GitHub, VS Code

Certifications:

- Java Course, Hitbullseye, November 2022
- Frontend Full Course, Coursera, December 2023
- Java Fullstack Course, ExceLR Solutions, 2024

Declaration:

I hereby declare that the above information is true to the best of my knowledge and belief.
